

BSM Achieves Prestigious Award

- Our Primary School has become the first independent international school in the world to achieve the Primary Quality Mark. Following a rigorous two day assessment, the assessor from the UK was delighted to present a plaque recognising the exceptional practise in our Primary School. Schools in the UK have coveted the award for 12 years. BSM has proved that its teaching and learning strategies and techniques offer the pupils a first class education. The assessment involved meetings with governors, parents, pupils and staff together with classroom observations and a full interrogation of key policies concerning teaching and learning. Sue Nicholson, one of the UK's Lead Assessors said, "I am highly impressed with the consistent high quality teaching strategies that BSM offers. There are many examples of excellent practice throughout and some cutting edge initiatives that any school in the UK would be proud of". BSM is thrilled to receive such commendation, which validates the hard

work of the staff, pupils, parents and governors.
